

The board of education delegates the responsibility for maintaining a continuing census with the school administration. The census will be taken annually at a time prescribed by statute. Whether this census will be a permanent or continuing census of all residents of the school district or an enumeration of school children shall be determined by the board of education. The name, age, and birthplace of all children in the school district from birth to twenty-one years of age shall be included. This school census shall also identify any children possessing any handicapping conditions. A list containing the names of all children, from birth to twenty-one years of age, belonging to the school district shall be kept in a depository maintained by the school district and shall be subject to inspection at all times.
