Curriculum

Introduction and Objectives 6200

The board of education has the responsibility for maintaining a minimum program of instruction guaranteed by the state statutes and for initiating improvements beyond the minimum.

The board of education and the employees of the school district are responsible for maintaining the program of instruction in accordance with the provisions of the constitution of the State, the acts of the Legislature, the rules and regulations of the State Board of Education, and the policies and regulations of the board of education.

The ultimate aim of education, as determined by the patrons, students, and staff of this school district is to help students develop a positive self-concept; be aware of individual responsibilities, rights, needs, and differences; have a sound background in academic fundamentals; be able to communicate and work effectively with others; and thus become rational, responsible citizens able to cope with future challenges. This goal is the shared responsibility of the home, community, and school. Only through the cooperative effort of these segments can this goal be attained.
