

Transportation of Enrollment Option Students

AR-5110.1

Gage County School District No. 34 shall not be obligated for the transportation of enrollment option students from the student's home to school or from school to the student's home for students opting to attend this school district. However, the board of education may approve the transportation of enrollment option students under the following conditions.

- I. If there is adequate space on the bus.
- II. If the transportation of the student does not add significantly to the time other students spend on the bus.
- III. If the road to the residence of the enrollment option student is readily accessible and safe for school buses.
- IV. If the residence of the enrollment option student is within two miles of the contiguous school district boundaries.
- V. Bus service to and from school shall be provided only when similar service is provided to those students living within the boundaries of the school district.

The accepting or denying of the enrollment option application to attend Gage County School District No. 34 shall have no bearing upon the accepting or denying request for student transportation to and from school. The parents or guardian should request to meet with the board of education for approval for district bus service.

There shall be no fee for this service.
